President - RaeAnn Chamberlin

Vice President - Tom Fincel

Secretary - Kelly Edmondson

Treasurer - Dean Burkhart

Directors - Richard Johnston, Brian Paterson,
Sam Rogers

Exhibit Co-Chairs - Bruce Pratt, Bill Elliot

Pacific Rim Bonsai Collection

San Jose Juniper (*Juniperus chinensis* 'San Jose')

Date of Origin: 1954

Country of Origin: USA

Artist: Mr. Masashi Moriguchi

Bonsai Since: 1956

Source: Moriguchu collection; Los Angeles, CA

A perfect example of slanting style bonsai, this juniper gives the impression of being influenced by some constant force. Whether that force is the pull of gravity as a riverbank erodes beneath its roots, or the attraction of the sun drawing it from the shade of taller neighboring trees, or the force of prevailing winds is left to the viewer's imagination.

San Jose juniper is one of the most popular plant materials for bonsai, due to its naturally curvaceous trunk and compact foliage. This specimen was purchased by the artist in 1956 as nursery stock in a one-gallon container, and has been skillfully trained and cultivated ever since.

2nd Annual EBS Internal Exhibit

Just a reminder that Thursday's meeting also marks the second annual internal exhibition for Society Members. Last year we had a great first showing, and we hope to have a great showing this year too. Please plan on bringing a tree (or two or three) to exhibit. Each tree will receive a brief "critique"; its a great way to take your skills to the next level in a friendly, nonjudgmental environment. Below are a couple pictures from last year's show to serve as inspiration!
